Cozy Bent Tree Cabin

This warm comfortable cabin is ready now for a new owner to enjoy everything that a great mountain home has to offer. The great room offers a wood burning stove, relaxing seating in front of a wall of glass, a dining area and well organized kitchen with island. The rest of the main level is functionally a master suite with a bath, sitting room or office, master and a huge screen porch running the length of the home. Outside there are two more decks and a 2nd screen room just as large as the one on the main level—not many homes in any price range have this much screened-in outdoor living space! On the lower level there is a den, a full bath, 2 bedrooms and a bunkroom for the kids or grandkids. This is a perfect weekender for guests or family because of the room layout on 2 levels. If you want a more modern master set up, the current configuration could easily be transformed into a spectacular master suite with plenty of indoor and outdoor space. The home comes with a one year Home Warranty and can be purchased furnished. There is also a lot next door that can be bought separately or combined.
